

TV Guard

Cable and Satellite protector

Home Theater Accessory

The TV Guard by RGPC is the finest coax protector available on the market today. It responds at lightning speed (less than 100 Nanoseconds) to protect your sensitive gear from surges over the Coax line. What's more, it does so with an extremely low insertion loss, so more of the signal actually makes it to the TV and more signal strength means a better picture. It is compatible with HD and Digital Cable as well as Satellite and Cable modems.

- Very low insertion (signal) loss
- HD / Digital Cable and Satellite Compatible
- Long life – over 600 surges before replacement
- Easy-to-Install

\$89 MSRP

Specs:

Dimensions:	2.5 x 1.25 x 3.875 inches (WHD)
Frequency:	0 to 2000 MHz
Insertion Loss:	<1.0
Characteristic Impedance:	75 Ohms
Connectors:	Female F-Type (2x)
Firing Voltage:	180 V
Surge Current:	5000 Amps
Response Time:	<100nS (10kV/uS)
Service Life:	>600 Times @ 500 Amp pulse
