

200 LD

Parallel Power Delivery

The RGPC 200 LD is a compact Parallel Power Delivery Model designed to fit conveniently in tight spots, while delivering all the AV enhancements by utilizing the patented parallel technology. To receive the maximum performances install the RGPC 200 LD as close as possible to the AV equipment.

The RGPC 200 LD, utilizes Balanced Surge Protection Design (SPD) to ensure Bidirectional Protection and Reduced Ground Interference.

FEATURES & BENEFITS

- High current on demand
- Balanced AC surge protection
- Resettable circuit breaker
- Compact design
- Metallic housing for added protection and safety
- Compatible with UL1449 3rd edition for Type 3 locations

APPLICATIONS

- All AV equipment
- Smaller systems
- Installations with multiple circuits
- For crisp and flawless AV experience

Dimensions (WHD)	4 x 5 x 7
Net weight	5 lbs
Mounting	Stand alone Floor/ Shelf
Power Cord	Detachable 6 feet, low Impedance 12 AWG, with NEMA 5-15P
Outlet	2 (NEMA 5-20R)
Input/Output Voltage	120VAC
Frequency	50/60HZ
Output Power	12 Amps (1,440 Watts)
Technology	Parallel Power Delivery
AC Surge Protection	Balanced
Efficiency	> 99%
Cooling	Convectional
Operating Temperature	-40°C to 65°C
